The image displays two mobile app screens. The left screen shows the 'WBSC Training Game' interface with 'AWAY LINEUP' (NED) and 'HOME LINEUP' (ITA) lists. Below these is the 'GAME INFORMATION' section, which is highlighted with a red box and labeled '1'. This section includes fields for 'Weather:', 'Attendance: 0', and 'Game Notes:'. A red arrow labeled '2' points to the 'Game Notes' field on the right screen. The right screen shows the 'Game Information:' section with a red box around the 'Submit Final Score (Without entering any plays)' button, labeled '3'. Other elements include 'Offline Scoring' (ON/OFF), 'Refresh Rosters', 'Enter ID Provided', 'Load Remote Data', and a 'Close' button.

# Extra information

- We advice clubs to have internally creating their own score communication channel.
  - Example: WhatsApp group
- So, one person can provide in the scores of all home games played on a specific date.
  - This only for games that aren't being scored live via the application.
  - The live scored games will be uploaded automatically.
- We do not advice to provide each team coach the 'club log in' details because:
  - This can cause issues since 'assigned scorekeepers will use the same club log in to score games.
  - Mistakes might happen in providing scores for wrong games.
