The screenshot displays the 'Game Information' app interface. At the top, there are two columns for 'AWAY LINEUP' (BRU) and 'HOME LINEUP' (HOB), each listing batters 1 through 9 and a pitcher (SP). Below the lineups is the 'GAME INFORMATION' section, which includes fields for 'Weather:', 'Attendance: 0', and 'Game Notes:'. A red box highlights the 'GAME INFORMATION' section, with a red arrow labeled '1' pointing to it from the left. Below the 'GAME INFORMATION' section is a 'Submit Final Score' button, which is also highlighted with a red box and a red arrow labeled '2' pointing to it from the right. At the bottom of the screen, there are two buttons: '< Exit' and 'Publish Lineups'. A red arrow labeled '3' points to the 'Submit Final Score' button from the right. The right side of the screenshot shows a mobile phone interface with the same 'Game Information' section, but with a red box around the 'Submit Final Score' button and a red arrow labeled '2' pointing to it from the right. Below the 'Submit Final Score' button is a 'Load Remote Data' button and a 'Close' button.

# Extra information

- We advise clubs to have internally creating their own score communication channel.
  - Example: WhatsApp group
- So, one person can provide in the scores of all home games played on a specific date.
  - This only for games that aren't being scored live via the application.
  - The live scored games will be uploaded automatically.
- We do not advise to provide each team coach the 'club log in' details because:
  - This can cause issues since 'assigned scorekeepers will use the same club log in to score games.
  - Mistakes might happen in providing scores for wrong games.
