### 3 UMPIRE MECHANICS

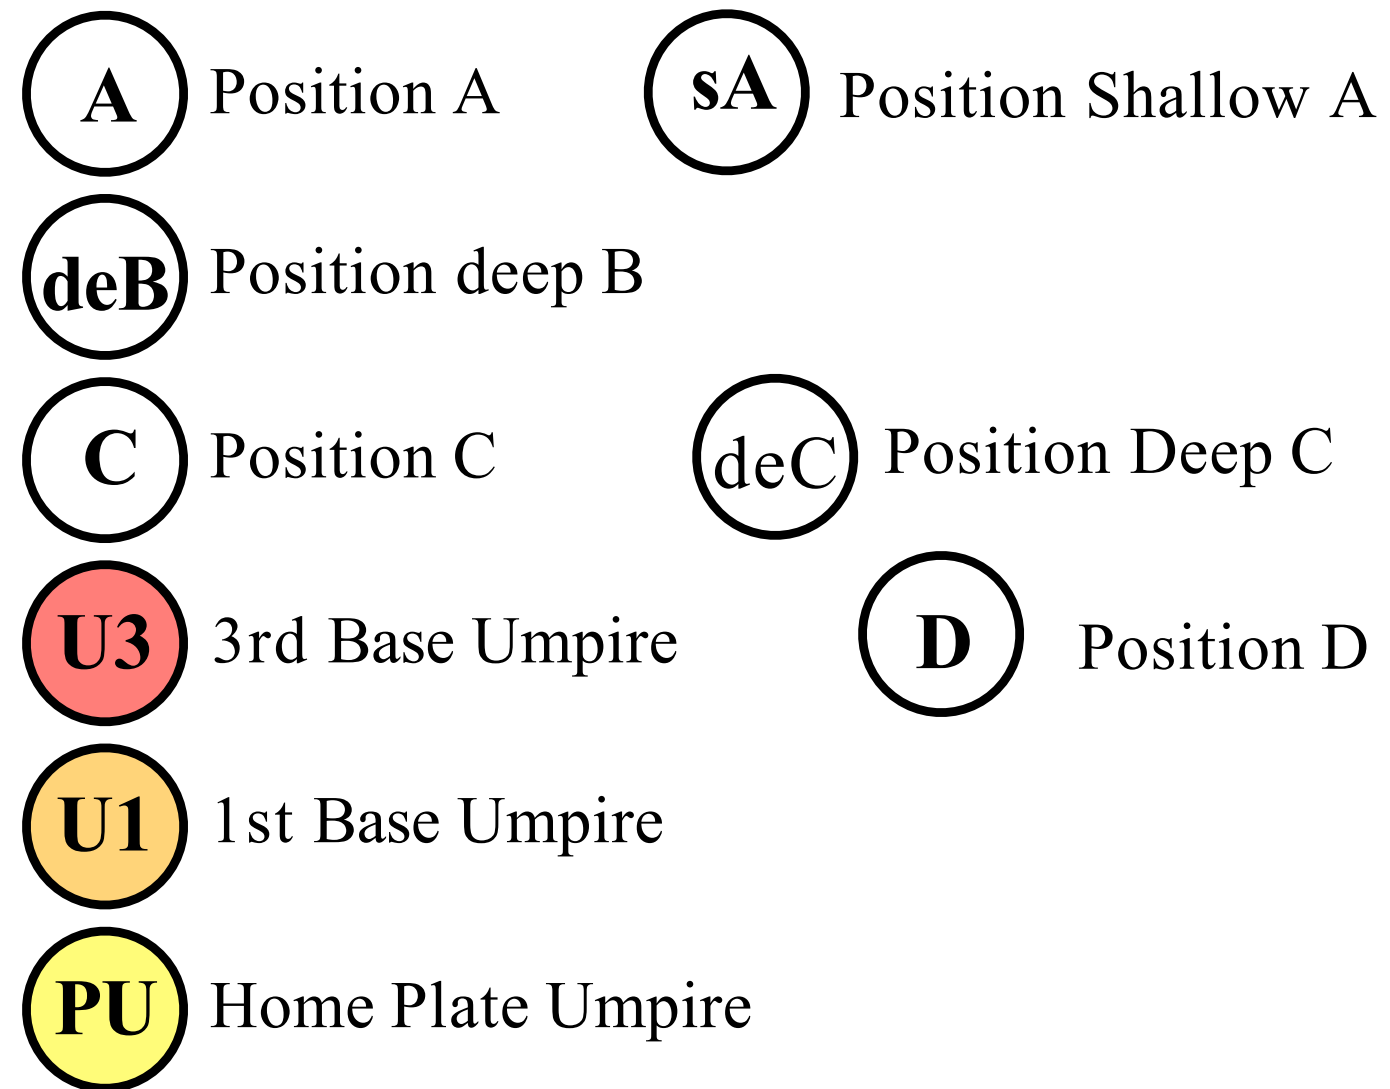

#### Mechanics Concepts:

- With no runners on base, U1 or U3 will go out on **ALL** fly balls (catchable-fair/foul/boundary) and line drives that are his/her responsibility.
- With one runner on base, the wing umpire will go out on **ALL** fly balls and line drives (catchable-fair/foul/boundary) to the outfield that are his/her responsibility.
- With multiple runners, umpires will only go out on fly balls and line drives to the outfield that are **trouble**.
- Umpires **ARE** required to go out from the middle of the infield on trouble balls.
- Unless in unusual circumstances (possible out-of-play line, spectator interference etc.), umpires will not go out on clear base hits.
- The crew needs to communicate and work together at all times.
- The practice of “rimming” (moving on the outside of the base line) is an acceptable practice for WBSC Europe umpires if situation allows it. It is, however, often discouraged.
- In many cases umpires have to split the difference and react.
- Any time any umpire goes out on a fly ball, movements revert to the two umpire system.
  - Knowledge and mastery of the two umpire system is imperative for the mastery of the three umpire system.
